Access: There are no restrictions on access to the collection (with the exception of photos that include identifiable patients).

Copyright: Requests to publish materials from the collection should be directed to the MGH Archivist.

Scope and Content Note:

The collection consists of contact sheets and digital disks containing a large number of pictures taken by photographers at the Photo Lab, documenting MGH people, places and events, ca. 1999-2008. The materials are in binders and remain in the arrangement in which they were filed by the Photo Lab. The topics list was devised by the Photo Lab.

Processing Note:

The materials have re-boxed in acid-neutral archives cartons, but are otherwise unchanged from the way in which they were maintained by the Photo Lab. The collection needs a great deal of additional listing and description to improve intellectual access to its contents.
